General Contractors

Yousef Ibrahim Al-Olayan

The Foundation started its activities since 1996 with general contracting and maintenance works, and it has achieved many successes, thanks to God, and is still at a high level. The projects entrusted to it have been accomplished with full merit and have been classified in the rating agency on the first level, and we continue, thanks to God, to perform our work to the fullest in the activities of the institution, and we look forward to more progress and giving.

Ghatouf Fields of Work

Surveying Works

Ghatouf Contracting has been a pioneer in road construction and maintenance for over 25 years. The company has successfully executed projects for the Ministry of Transport and Logistics Services, the Ministry of Municipal and Rural Affairs, the Ministry of Water, the Royal Commission for Jubail and Yanbu, the Saudi Authority for Industrial Cities and Technology Zones (MODON), and various other governmental and private entities through its branches across the Kingdom of Saudi Arabia.

By the grace of God, throughout this period, not a single project assigned to us has ever been withdrawn.

Ghatouf was officially licensed to operate in the contracting sector in the year 1418 AH (1997 AD)

International Certifications:

- Ghatouf Contracting Company is certified with:

ISO 9001 for Quality Management Systems.

ISO 45001 for Occupational Health and Safety Management.

ISO 14001 for Environmental Management.

Organizational Structure

Project Management Structure

Our Mission

To be distinguished and pioneer in the field of general contracting and committed to development by providing the best services with the highest standards of quality and excellence, as the corporation built a solid core that became a model capable, thanks to God, to deal with all types of enterprise projects. High and appropriate periods of time, and through which we put our mark in the development of our beloved kingdom.

Our Vision

To compete to contribute to the renaissance of our dear Kingdom in implementing strategic projects at the highest level while adhering to quality standards that are our first goal and continuous development with the latest technologies.

Equipment & Furnishings

The establishment made complete equipment in its activity in order to be self-sufficient and not depend on others by establishing many quarries of crushers and asphalt mixers for the production of aggregates and the production of asphalt and ready-mixed concrete in order to implement the projects of the establishment

Technical Teams

The Foundation attracted many engineers and professionals in the specializations of the activities of the Foundation and they were trained to the fullest, and they became, by the grace of God, with the rest of their colleagues working in the institution, which reached 785 individuals until mid-2024.

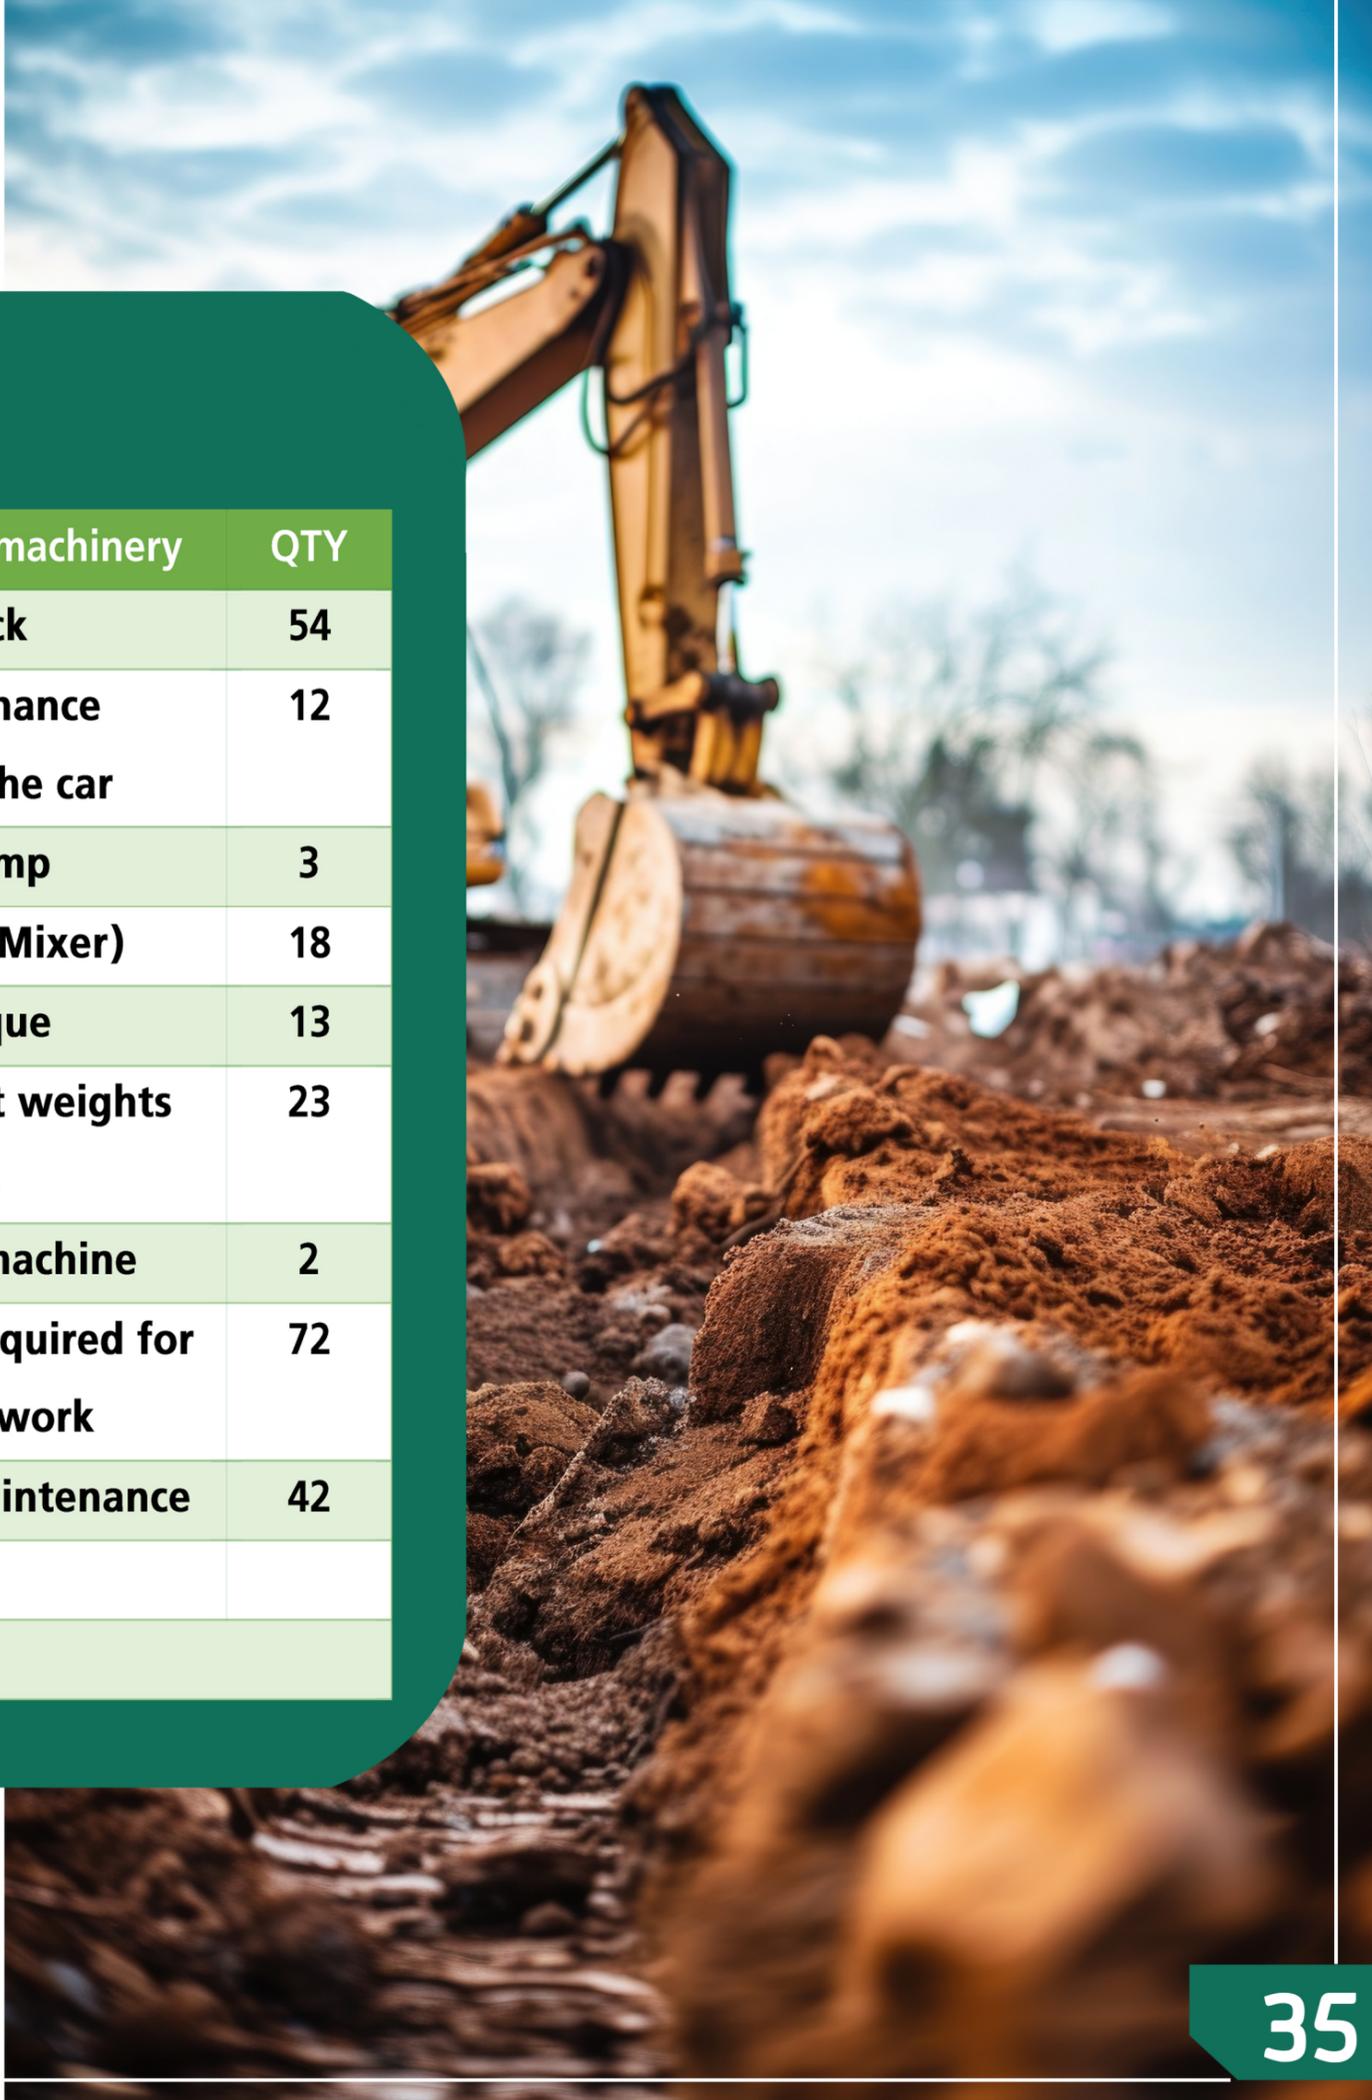

They have contributed to laying one of the building blocks of the institution's brilliance, as the institution seeks to achieve the 2030 vision by activating a plan for training, qualifying and employing Saudis in the various specializations of the institution through a number of heavy machinery, equipment and equipment owned by the institution, whose total number is (718) pieces of heavy equipment.
